age-Boxes-Improvements. [Correspondence of the Richmond Dispatch.] PETERSBURG, VA., August 22, 1890. The first offerings of the new crop of to-bacco were made to-day at West Hill warehouse. They consisted of several lots of flue-cured brought in by Mr. Joseph Dameron, of Brunswick county, and which were readily sold at prices ranging from \$15a\$31 per hundred pounds—far above the figures that the same tobacco if not \$15a\$40.

A sensation was caused at Coyner's Springs last night by an Eastern-Shore young lady springing from a two-story window in her sleep. She was picked up. the figures that the same tobacco if not the figures that the same tobacco it allowed the figures that the same tobacco it allowed the figure thats, bankers, and all classes of businessmen here are deeply interested in the scheme to induce the planters of this section to flue-cure their tobacco, or at least a large portion of their crops, and intend to offer such inducements as will make between a citize competitive market

Petersburg an active competitive marke for this class of tobacco. It is proposed on Monday night next to organize a Fright-Tobacco Association, separate and distinct from the regular tobacco association of the city, with a capital sufficient to encourage the bright-tobacco trade, and to purchase all tobaccos of this class that may be offered in this market. The movement in this direction includes all of our principal tobacconists and business-men, whose names are a sufficient guarantee of success. The organization will be perfected on Monday night, when further particulars can be given. The indications are that the time is not far off when Petersburg will be one of the best bright-tobacco markets in the State. The large counties, like Branswick and Mecklenburg, are increasing the amount of fine-cured tobacco every year, their experience having shown the planters that it is greatly to their advantage to make this class of tobacco. Rev. Dr. Keiser, of Chicago, arrived here this afternoon as the guest of the Hebrew congregation. He comes by invitation, and on trial, with the probability of his being called to the pastoral charge of the synagogue on Union street, to full the vacancy caused by the resignation of Rev. Dr. Myers. There are only nineteen Jewish families in Petersburg, and yet they have a beautiful synagogue and pay their pastor a good salary, and show great enterprise in secular as well as religious matters. They have in contemplation the erection of a fine pursonage for the use of their pastor, to be located in the rear of their synagogue. A RABBI ON TRIAL.

Postmaster Bolling to-day located the places for the establishment of the five postal package-boxes that have been sent to him by the department at Washington. LUNDECESSARY UNEASINESS.

A portentously dark cloud, from which were emitted constant flashes of electricity, swept around to the north of the city last evening. Its appearance gave rise to a great uneasiness in the city for fear that it would not only deluge us with rain, but bring with it something in the nature of the dreaded cyclone. Fortunately we felt the dreaded cyclone. Fortunately we felt the dreaded cyclone. The Odd-Fellows' Association will have the plans and specifications for their block of buildings completed by the middle of next week, and expect to go to work at once and have the brick- and carpenter-work finished before the winter sets in. The ground floor will have four beautiful stores of a depth of one hundred feet each.

The farmers are fearing too much rain for their tobacco. They say they have already had a sufficiency for the crop.

GLASGOW, VA., August 22.—Glasgow is fast redeeming the fondest hopes of her originators. Yesterday the ground on which is to be erected the rolling-mills was staked off, and to-day contracts were signed with the Messrs. Whitman, of Columbus and Ironton, O., for the erection of a large stars are apprenticed. Columbus and fronton, O., for the erection of a large stove-manufactory. The industry will cover three acres of ground and will employ 125 men. The capital invested will be \$100,000 and the weekly pay-roll will amount to over \$1,890. The Messra, Whitman have similar works at Columbus, O., and their goods have a widely-established reputation.

President Scott, of the rolling-mills, to-day gave a building company orders for one bundred dwellings, to be completed in

by the author of Genesis, and explained in the street-railway service of this city, and the probability is that at an early day we shall have lines running on several new streets, and to points equally as important as the present termin of the two branches.

One of the largest and best sora-marshes on the Appomattox river has been leased by a party of Norfolk gentlemen, and has been posted against all outside parties. This particular marsh has for many years furnished sport in sora-shooting to many Petersburg huntsmen.

A SPAREING-MATCH.

The attraction at Granite Grove, in Dinwiddie county, to-night was a sparringmatch between "Professor" Billy Layton, of this city, late of Buffalo, N. Y., and Mike Bowers, of Boston. Ten ronds were sparred, and a goodly crowd witnessed the exhibition.

The two handsome stores on Sycamore street being erected by Mr. Augustus Wright have already been rented at hand-some figures. These buildings will make a very handsome improvement to the street.

Twenty Minutes Apart at the Start.

The City of New York, of the Inman Line, and the Teutonic, of the Mitte-Star Line, whose splendid westward contest, finished last week, is still a theme of talk among nantical folks, started on another 3,000-mile race on Thursday morning. This time Captain Watkins, of the Inman ship, has a more competent crew of firemen, who he expects may enable him to show his counter to the Teutonic before she reaches Roche's Point next Tuesday. It may going to be a veritable race all the way across, and if the weather is fine the eastward record of five days twenty-two hours and fifty-seven minutes, made by the City of Paris, will be lowered, because each skipper has declared that he will do his best to vanquish the other. The quicker the ships make the trip the less expensive it will be and the greater percentage the captains will get in the earnings of their craft.

The City of New York, with 178 cabin and 225 steerage passengers, drew out from the content of the Years—Material for Junk-Dealers.

Nonfolk, August 22, 1890.

The wet season seems to have resumed possession of this section again. Rain has fallen every day this week, and commencing at midnight last night it seems to have set in for a long stretch. Fortunately there is nothing much on the Norfolk county farms except the sweet-potatoes and seed lrish potatoes that the excessive rains can now hurt. Up the Seaboard and Roanoke road in Northampton county, where the lands were getting worthless from repeated failures, the immense crops of cotton, corn, and peanuts made this year have led the farmers to declare they are now going to have good crops for the next ten years. They think, however, there will be no money in peanuts this year on account of the great abundance. Digging will commence in thirty days.

DULL-SEASON SHIPTING.

Sweet potatoes and apples form the only Norfolk truck now shipped to the northern markets, the melons being too ripe to to be handled. Truck-shipping at this point is now dull, and the oyster vessels engaged in running the stuff to the steamers from the farmes are all laid up repainting and refitting for their regular business, which begins in about two weeks. Many of the vessels have lately been engaged in planting oysters.

NEGRO POLIFICAL CONVENTION.

The negro State Convention meets here on the 26th instant, just two days before the Republican State Convention. Your correspondent this morning had an interview with some of the promoters of the convention. Some delegates arrived today, being also delegates to the State Farmers' Alliance Convention. It was stated by the convention promoters that there will be a good attendance from all parts of the State. The convention will adopt resolutions giving President Harrison its views of the character of the white Republicans who are at the head of affairs NEGRO POLITICAL CONVENTION. offices. These spoilsmen say to the Administration that if the negro is kept out all will be well and the State can be carried, but to one another they admit that there is no chance of such a thing.

It was further stated that if good Democrats are put up there will be quite a spit of the blacks, and the Democrats will get a considerable number of votes. The negroes will vote, they say, for moderate Democrats, their view being that the day for extreme men has passed. The blacks do not understand the new election law (an excellent one, by the way), and assign that as a cause for not going over to the Democrats in large numbers. The Democrats are not soliciting negro votes at all, nor have they ever done so in North, Carolina.

It is said that Alexander McIver will be put up as the Republican candidate for Congress in this district.

It is plain that the alliance is going to support its own people. Take Wake county. The Democrats have nominated at alliance ticket for the Legislature. If the Republicans do not nominate alliance mer
